9th March, 2020

Dear customer,

I am writing to explain the current situation in our company in the confused and sad circumstances of this period.

The Italian government approved a new emergency decree to **contain the spread of the coronavirus**.

The emergency decree applies to the entire Lombardy region, as well as other municipalities in northern Italy including in and around Venice, Padua, Parma, and Rimini.

The measures are expected to remain in place until April 3rd.

We are in a kind of "orange" zone, with **limitations of movement for reasons different from job, health or business**. There could be some vacancies in the ordinary business partner as we are letting our people to take time to care about older relatives that are the subjects more likely to be affected by the virus.

Anyway, I would like to let you know that:

- we are **fully working** with no limitations
- we are taking **all the safety measures** suggested by the authorities
- the Minister of Transport confirmed that **goods may regularly enter and leave the territories concerned**. Truck drivers can therefore enter and leave the territories concerned and move within them, limited to the needs of delivery or collection of goods.

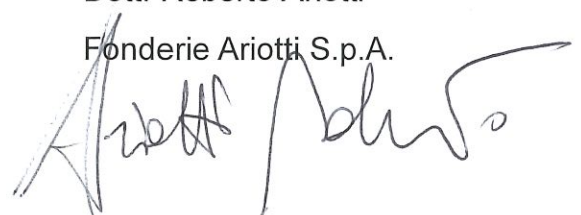

We do not expect further constraint and we believe **we can keep on the ordinary delivery schedule**.

At your disposal for more detailed information,

yours truly

Dott. Roberto Ariotti
